WORK EXPERIENCE

Graphic Designer Intern

HelpyMoto, Delhi, India   *Nov 2022 - Feb 2023*

- Excelled in creating compelling social media posts that garnered high levels of audience engagement, contributing significantly to brand visibility and interaction
- Designed informative booklets and dynamic presentations that effectively conveyed the brand's message and information, becoming indispensable assets for clients and partners.
- Played a pivotal role in refining the company's visual identity and elevating its marketing efforts through innovative design solutions, thereby making a substantial impact on its overall success.

Freelancing

FutureSight, Banglore, India   *Feb 2024 - March 2024*

- Developed a visually captivating frontend UI for Futuresight, a Bangalore-based company, leveraging React and Tailwind CSS to create an intuitive and aesthetically pleasing user experience. .
- Integrated essential functionalities such as user authentication, utilizing Directus for data storage and management, and implementing JWT token authentication for enhanced security.
- Successfully deployed the end-to-end project to AWS using Amplify, ECS, and ECR, gaining invaluable experience in project deployment and management on cloud infrastructure.

PROJECTS

- **Shoes Ecommerce Application** , Created a user-friendly e-commerce app with seamless login, product browsing, and cart management. Integrated Directus CMS for efficient backend product management. Enhanced user experience with intuitive features and categorized product organization. Demonstrated innovation and scalability in modern consumer solutions. https://github.com/anjali-1607/shoes$_{website}$
- **Music Player**,Developed a responsive MP3 player webpage using HTML, CSS, and JavaScript, featuring play, pause, next, and previous controls. Enabled dynamic song loading for seamless track transitions, leveraging Font Awesome icons and animation effects for enhanced user experience. https://anjalis-music-player.netlify.app
- **Whatsapp Clone**, Currently creating a WhatsApp clone with Socket.IO and WebRTC, utilizing Chakra UI for the interface and React with React Router DOM, Formik, and Yup for frontend development. Employing Express.js, Express Session, PostgreSQL, and Redis for backend functionality.

CERTIFICATES

- Frontend Bootcamp Certificate
- Backend Bootcamp Certificate
